

TIANSHUI HUATIAN SENSOR

CWC TEMPERATURE SENSOR

1 Main technical data

Range	- 50 ~ 200 °C
Sensor type	Thin film PT100 resistor
Output signal	Resistance value, three-wire
Accuracy	A
Probe material and specification	304 stainless steel or nickel plating on copper Φ 5 × 50 mm (can be customized)
Lead wire	PT100 compensation wire (core: two red and one transparent, wrapped by PTFE skin)
Package adhesive	Epoxy resin
Insulation resistance	≥ 100m Ω (500VDC)
Protection grade	IP66
